82.    <p>Are you struggling to study effectively? Do you find yourself getting
    easily distracted or struggling to retain information? Look no further! We have
    compiled a list of 5 effective studying strategies for students. These include
    the Odysseus Method, the Pareto Principle, Pomodoro Technique, Parkinson's
    Principle, and Active Recall. By incorporating these methods into your studying
    routine, you can improve your focus, productivity, and retention of information.
    Keep reading to learn more about each strategy and start implementing them

    study</h1><br>↵
89.    <p>This daily routine is not your average morning schedule. It is designed
    with neuroscience-based practices to help students maximise their productivity
    and achieve their goals. Starting with waking up at 5:30 am, the routine
    includes a mix of physical exercise, deep work sessions, and rest breaks to help
    students stay focused and energised throughout the day. The routine is divided
    into three phases, each with specific activities aimed at helping students
    achieve their goals. Whether you are a student or simply looking to improve your
    daily routine, this neuroscience-based approach can help boost your life.</p>↵
